GREENING UNIVERSITY AND EDUCATION: INTERNAL PROJECT OF THE UNIVERSITY OF VIGO (SPAIN)

Iria García-Lorenzo

María Dolores Garza-Gil

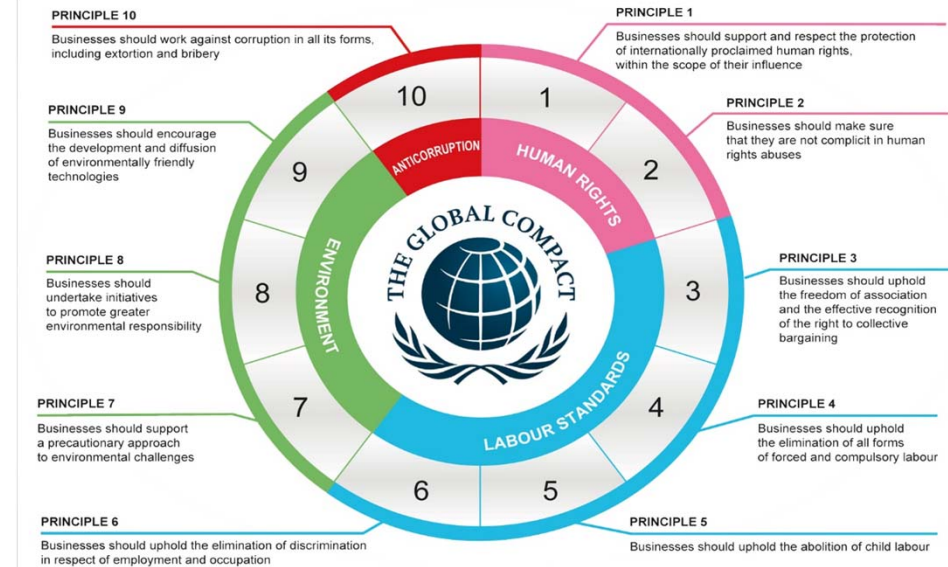

Department of Applied Economics, ERENEA, ECOBAS

Pre-conference: Green Education at the University. Phnom Penh, 1 January 2021

Social responsibility and a central part of the modernization of the UVigo. It seeks its economic, social, cultural and environmental sustainability:

- . Adhesion to the UN Global Compact
- . Adhesion to the EU Green Deal
- . Agenda 2030 in teaching and learning activities
- . Agenda 2030 in research activities
- . Social responsibility in the University of Vigo:
 - Social Commitment
 - Environmental Commitment
 - Commitment with people
- . International Projects Office

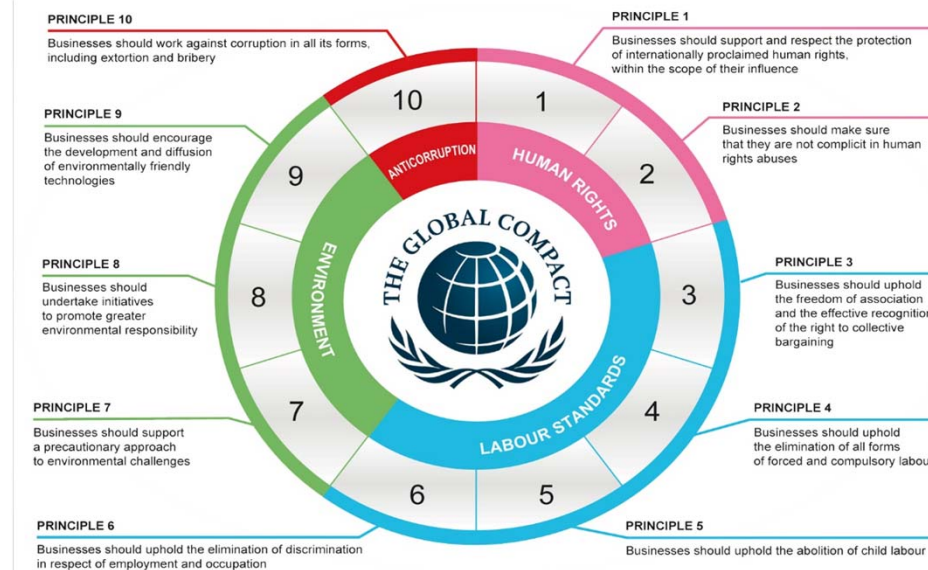

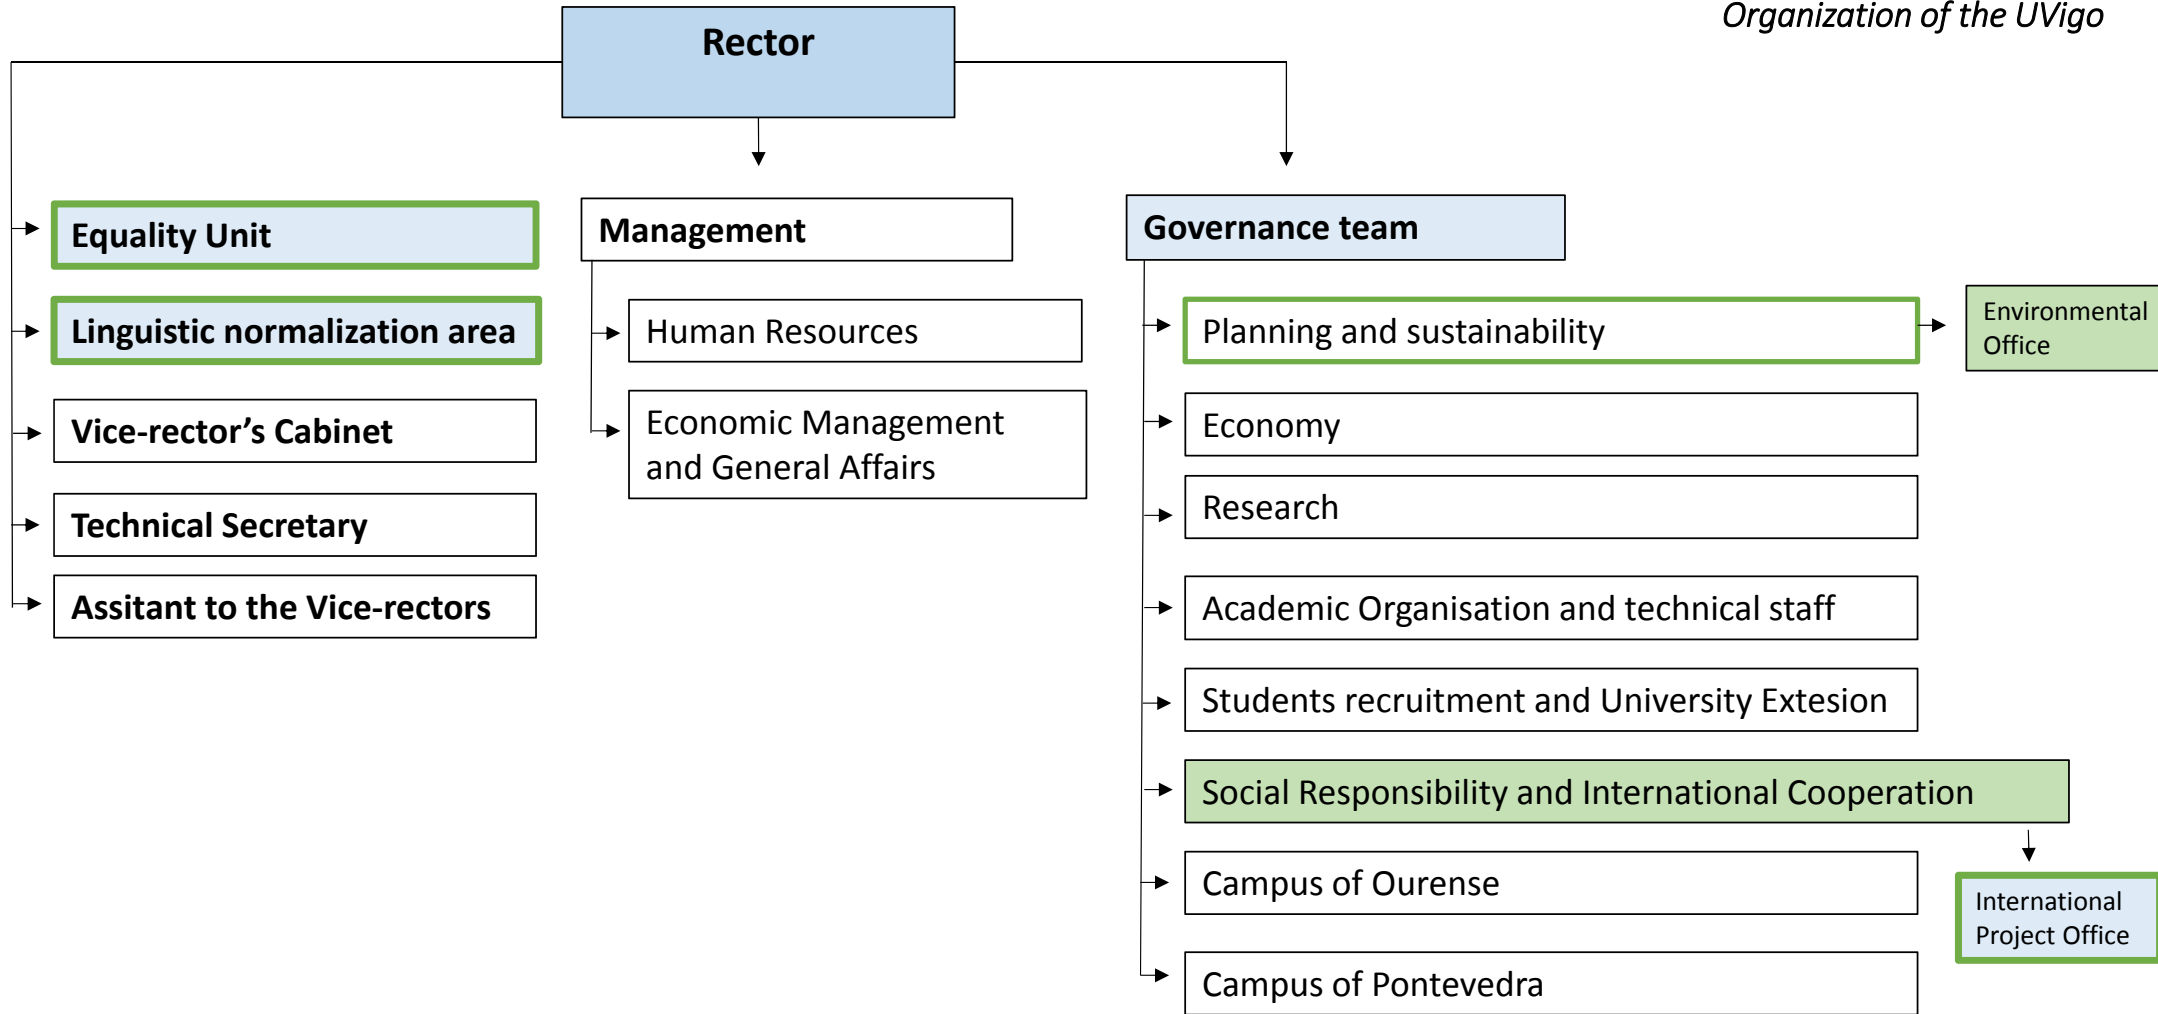

Transparency:

- . Annual Transparency Report
- . Annual Social Responsibility Report
- . Annual Ecological Footprint Report
- . Annual Report on papers matching SDGs
- . Newsletters about Equality Activities

2nd most transparent university in Spain (2020)

Organization of the UVigo

1. Agenda 2030 in teaching and learning activities

The *teaching offer* from the University of Vigo includes:

- Master Degree in Economics (+USC/UdC). A Formative Itinerary in “Economics and Society”
- Master Degree in Integrated Business Administration and Corporate Social Responsibility
- Master Degree in Sustainable Development Management
- Master Degree in Protection of Minors

Likewise, different graduate and postgraduate studies have subjects related to areas of social responsibility:

Bachelors/Degrees

Masters

PhD Programs

Social responsibility

Attention to disability

Occupational risk prevention

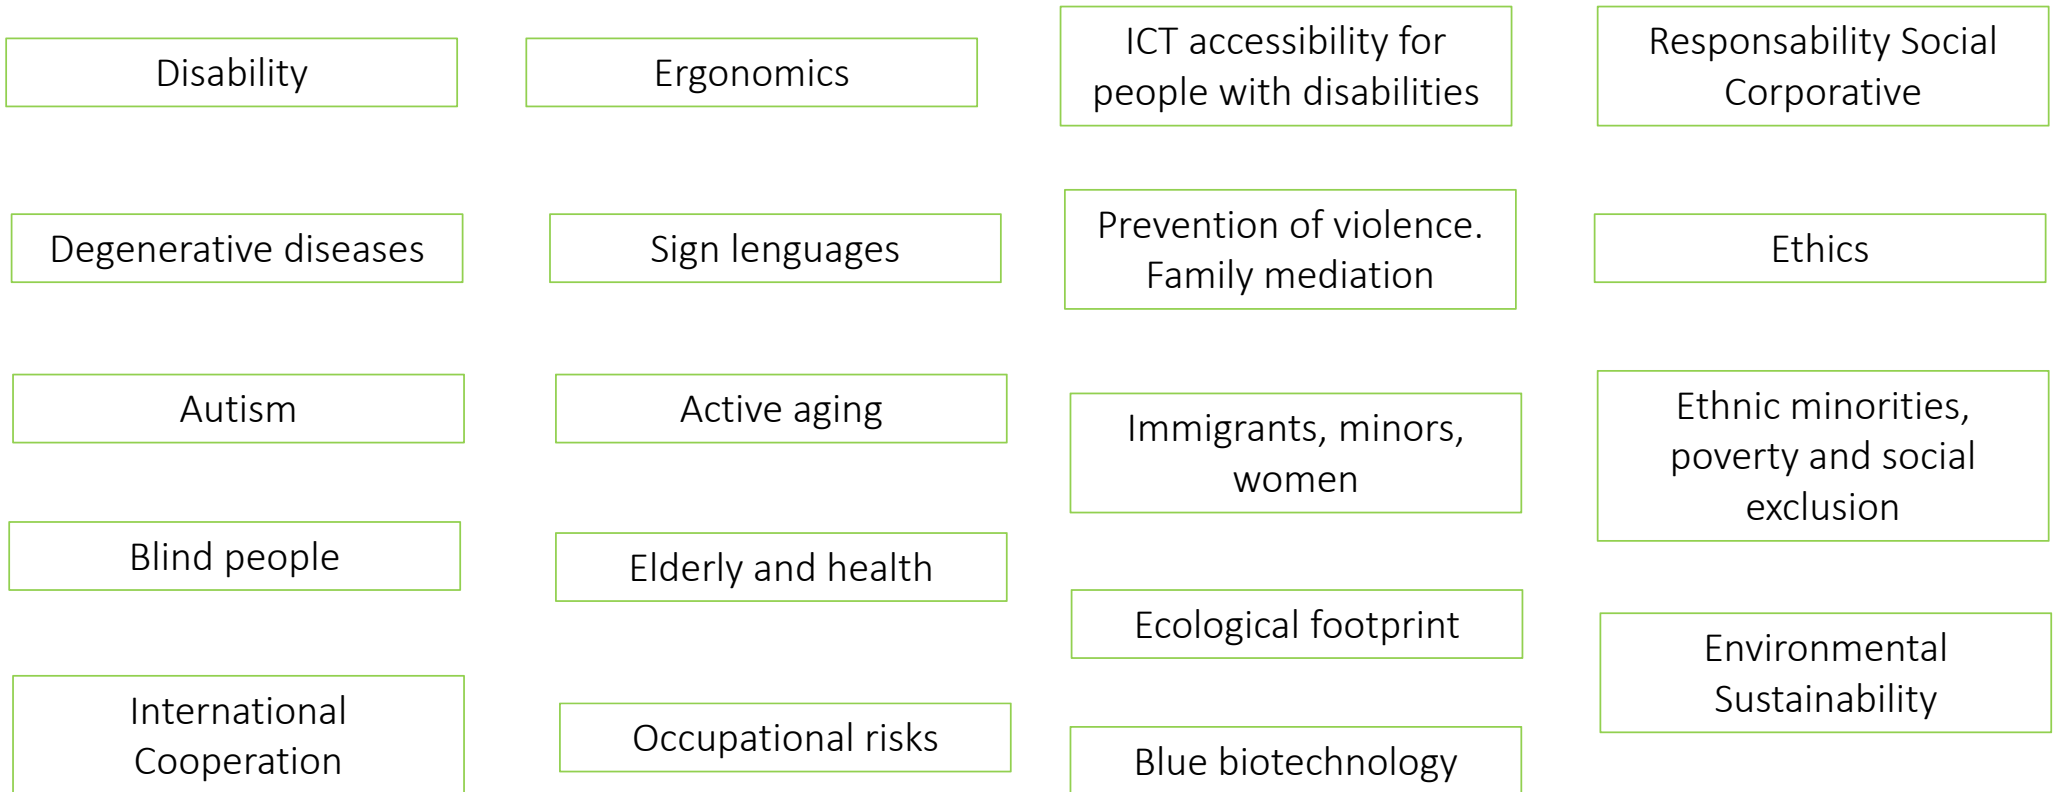

Environment

Awards for the students: Best final projects (Degree and Master) related to Agenda 2030 or gender perspective

Others: Student orientation, mentoring and Teaching Innovation Groups

2. Agenda 2030 in research activities

The University of Vigo has *several research groups* in areas related to social responsibility and environment:

3. Social Responsibility in the University of Vigo: Social Commitment

Volunteering: Solidarity action oriented to the nearest environment through volunteer projects → ECT credits

Development cooperation: Exchange of experiences and resources between countries to build common goals to achieve sustainable development

Health university: facilities, competitions, events

Culture in Ourense, Pontevedra and Vigo

Galician language

Linguistic normalization area

4. Social Responsibility in the University of Vigo: Environmental Commitment

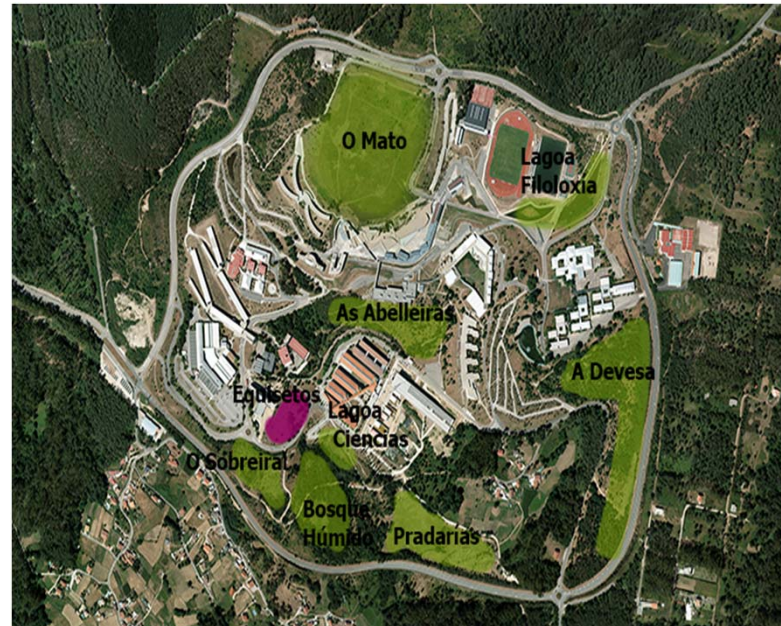

The Environment Office is the body responsible for the environmental policy of the UVigo. It is headed by a the director of the Environmental Management Area and its has also a Senior Environmental Management Technician and temporary trainees in training who work for different periods and in different projects.

Areas:

Environment and Nature

Sustainable Energy and Energy Efficiency

Recovery of electrical and electronic equipment

5. Social Responsibility in the University of Vigo: Commitment with people

Equality: To promote a culture of respect, equality and inclusion, ensuring that all people from our community can develop their academic and professional activity with dignity and in a space free of gender violence and maximum respect of human rights.

Equality Unit

III Plan of equality between women and men of the University of Vigo (2020-2024)

Attention to diversity: Anyone, regardless of their nationality, religion, sexual orientation, gender, functional capacity or socio-economic situation, is welcome at the UVigo. In order students can to fully develop their university life, the university has a Care Unit for Students with specific educational needs (UNATEN).

Occupational risk prevention: To work for the prevention, elimination and minimization of the risks that may exist in the development of the different activities in the university. Observation of working conditions and Occupational Risk Prevention Services → For example, teleworking because of COVID

6. International Projects Office

This vision of contribution to economic, social, cultural and environmental sustainability is also present in many of the international projects that UVigo has or has had in recent years, such as:

Capacity building for renewable energy planning in Cuba higher education institutions

Education models to transmit to society the challenge of global change in the ocean

EU – PÊCHE

A European vision of the oceans and seas: sea fishing and sustainable growth

Intergenerational Competition as Motivation for Sport and Healthy Lifestyle of Senior Citizens

Active Campus Europe - Sports

Latin America Practices and Soft Skills for an Innovation Oriented Network

Gender Identity: Child Readers and Library Collections
